Can I find yourself taking the time to drop everything and finally pay attention?

Absolutely no you will not be paying attention because you represent a cultural effect happening that you represent the side of life that I represent in the statement that the haters have been allowed in intentionally allowed to win.

This is a paradigm that is not natural it follows no natural law. The imbalance of our society is caused by the imbalance of actions toward our fellow citizens that are unnatural to endure the whole concept of gang stalking I know is real because I'm at the targeted individual of. When we take a hold of ourselves to understand that the gang stalking is just one element of a full perspective that you all in the law enforcement have put Upon Our Country our country is suffering these Mass kind of shootings. We are caught in a trap void.

A hole that you took. Perhaps you did not understand what you were doing but you understand now it's not going to stop it's going to get worse it's going to get worse and worse and worse as I told you so I told you so I told you so I told you so I told you so I told you in so many times and so many ways I told you so that you have no excuse to not know what I said and did not know what I said you came over to this house to bully me to stop faxing to the police.

When I said that I would I sent this last but but what if?

The statistics in the air Saturday article here about today's events and the overall how many people have been killed you sure want a nice peaceful and so you are a Law Officers peace officers right no you are not police officers you are not peace officers you are not peace officer would like to prove that that's not a problem at all.

And then may have just a few days ago the issuance of the article that what it says and I guess it won't get put on page one on this record for your facts that in the Los Angeles County Sheriff's Department they're under the lipstick or investigation that they have exposed to the elements to which is holding the entire scheme platform of enforcement to a backward upside down bottle and I wholly believe not only do I know believe but it is infected in San Bernardino County and with the phone number main phone number of the District Attorney's office and what comes up from truthfinder on the reporting of the phone number on to the the racist attitude of the DA's office for sure it is here in this County. So what if what if what if??? What if I'm telling you the truth but if it's going to be eventually exposed when that I told you the truth what if what if what if what if what if what if what if it is that I am the one you should be open to listening to what if you want to drop down and bow down to the knowing that the world is coming to an end and what is happening is happening to all of us and I don't care what you were promised I don't care what you were promised in fact that there are too many of you out here there are too many of you out here with the allegiance to let's model to which the ones at the top of this model I'm not going to let you do anything none of you this is only for us like maybe a hundred people at the top the rest of us in this including all of you and I and all of everybody else and thinks this is a model to follow are going to be slaves just like everybody else they're going to let all of you hold any kind of position that maybe you were promised of you none of you have that statue statue of status. You have to be pure born white which we can test and if you have one in Purity in your blood you're just like the rest and in the case of the hatred that is being portrayed upon this you can be shark killed executed just as easily as anyone else for you do not have the purity of the blood line. So you go with that all of you who have been following this a model for all of this time thank you to have something in the end I have nothing you are going to have nothing and for nothing you deserve nothing but knowing that I Told You So and when you finally meet God he's going to send you to hell for sure and you will burn burn burn for each other because you could not look to the right of the idea that what you have done here what you have done here in a collective understanding the numbers don't fit the to a model of leadership in some sort of orderly fashion provides function in all of you who are doing this even up into now. You are just fools you are fools and you are fools predictable to your predictability fools and slaves you all are that's all you have done for all of the Decades this has been ongoing. Are you going to listen to these words no but I'm going to have a Saturday anyway and I'm going to have a record of the facts on to the site that I said it I send them I sent them my settlement I told you so I told you so I told you so I told you so and I may be dead by the time the person who has the power to reprimand you because everyone answers to somebody and it will be said I Told You So and it will be converted to you you did not listen you chose to ignore me you chose your ignorance you have strategic ignorance here. God forbid you you are going to burn in hell perhaps you don't believe in hell you are going to suffer for these decisions somehow. I guarantee you it's not for my hand you have to worry about it's from the hands of people who know the truth that are actually more release when you are in the same mixed and finding a massive survival. No longer are you living in Civilization.

You have ruined. This country.

What if... then, there was a complaint about haters involved in #GangStalking by the leadership and directors of the Ryan White Care Act, profoundly placed region to region and can be ascertained to be a systemic problem in a federal program and the FBI nor anyone else would not care to help the citizen find the resources to help? What if ... then that citizen, in the role of community peace builder has been and continues to not be able to trust that he will not continue to be the victim of haters?

What if... no one cared? What if... no one in law enforcement cared?

What if... then this citizen was visited by law enforcement to stop the citizen from time and time again to find a solution to this problem of a paradigm that the citizen sees a need of protection by casting a view of support over the citizen...

What if... no matter where this victimization occurred, that the role of peace builder means, he might just have a solution and view to bring forward to stop mass gun shootings?

What if... because law enforcement is negligently misunderstanding their role involved in this citizen's reaching out; and they claim that this citizen is harassing them?

What if... In the process the police files criminal charges, and the citizen actually has the solution to stop mass gun shootings; by way; the police enforce the rules and laws that stop gang stalking?

What if... then lives could be saved.

For that is the role of law enforcement to "protect and serve"

-- both protect and serve is missing here.

WHAT IF THERE IS A GREATER CONSPIRACY HERE TO NOT SEE THIS REALISM?

What if... what is said here is the absolute truth in these matters?

What if... there is never a community affairs presentation and these mass gun shootings continue?

What if...

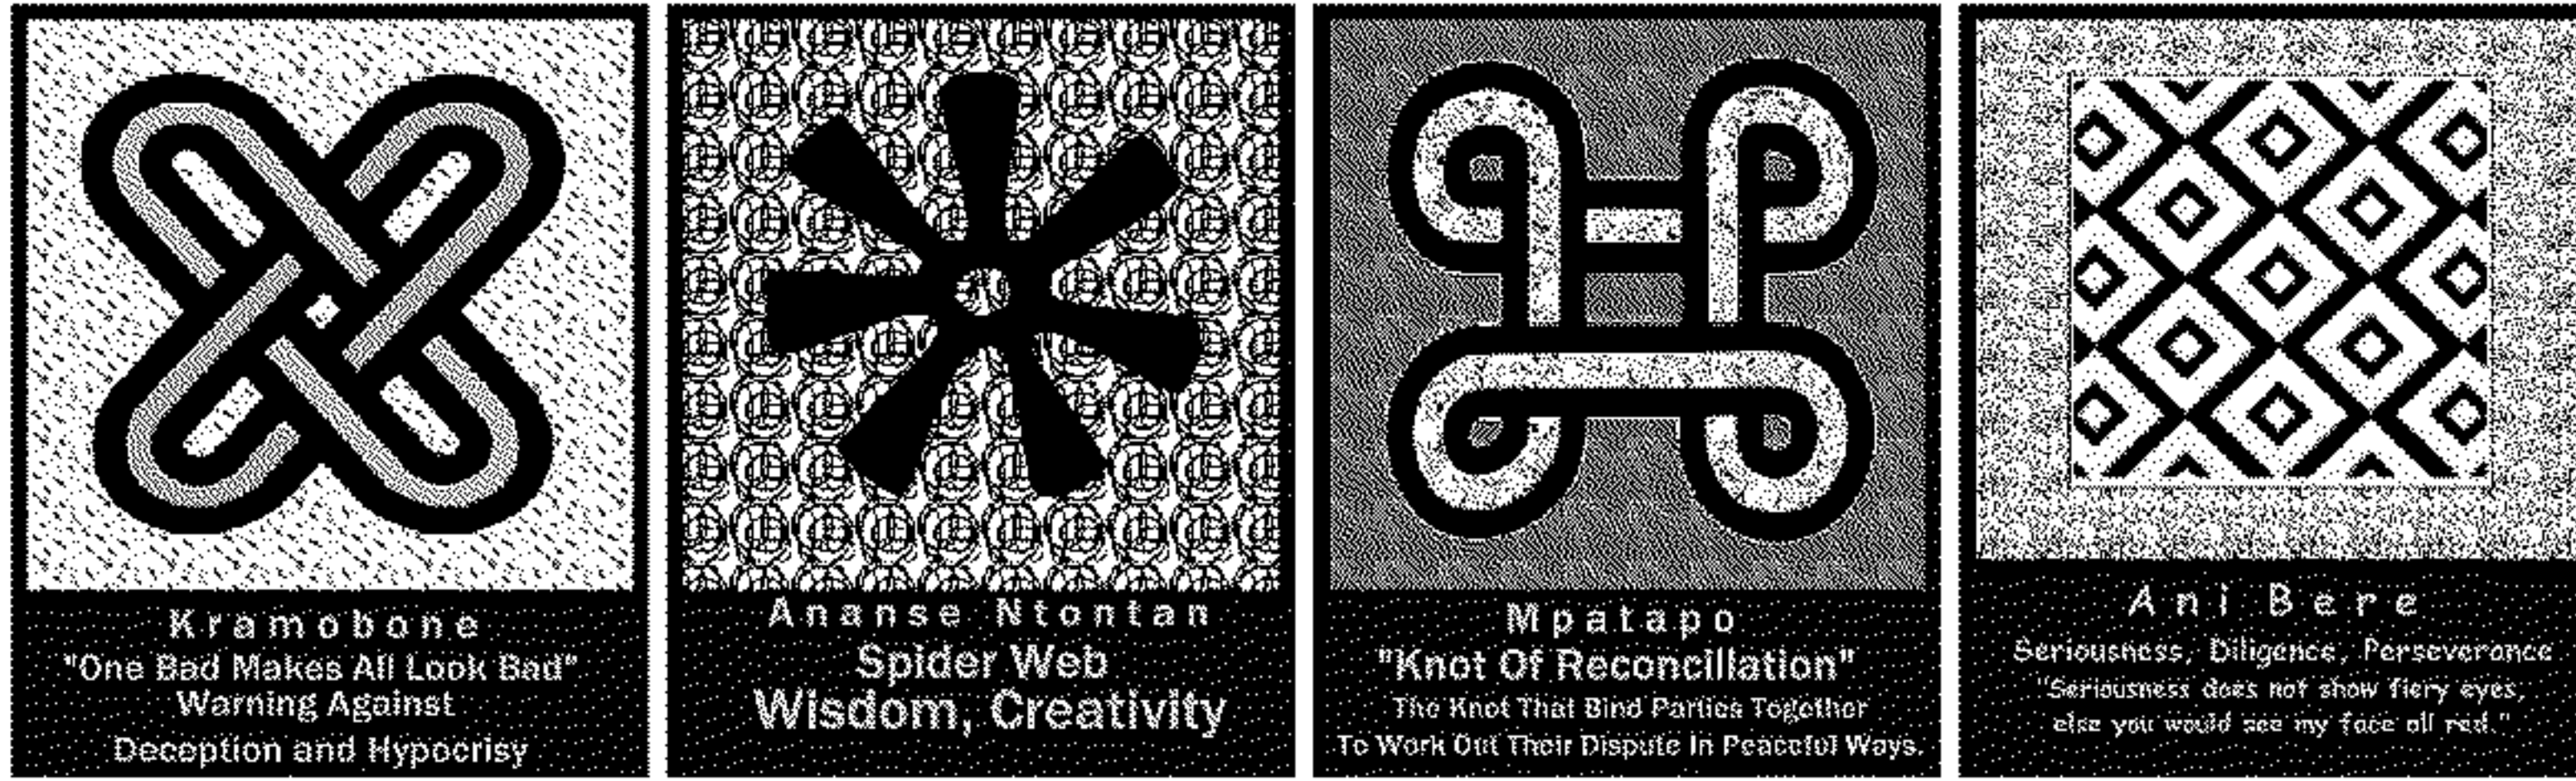

I will not contact you further via this method ... but

What if... you were to just respond a little wiser?

What if...

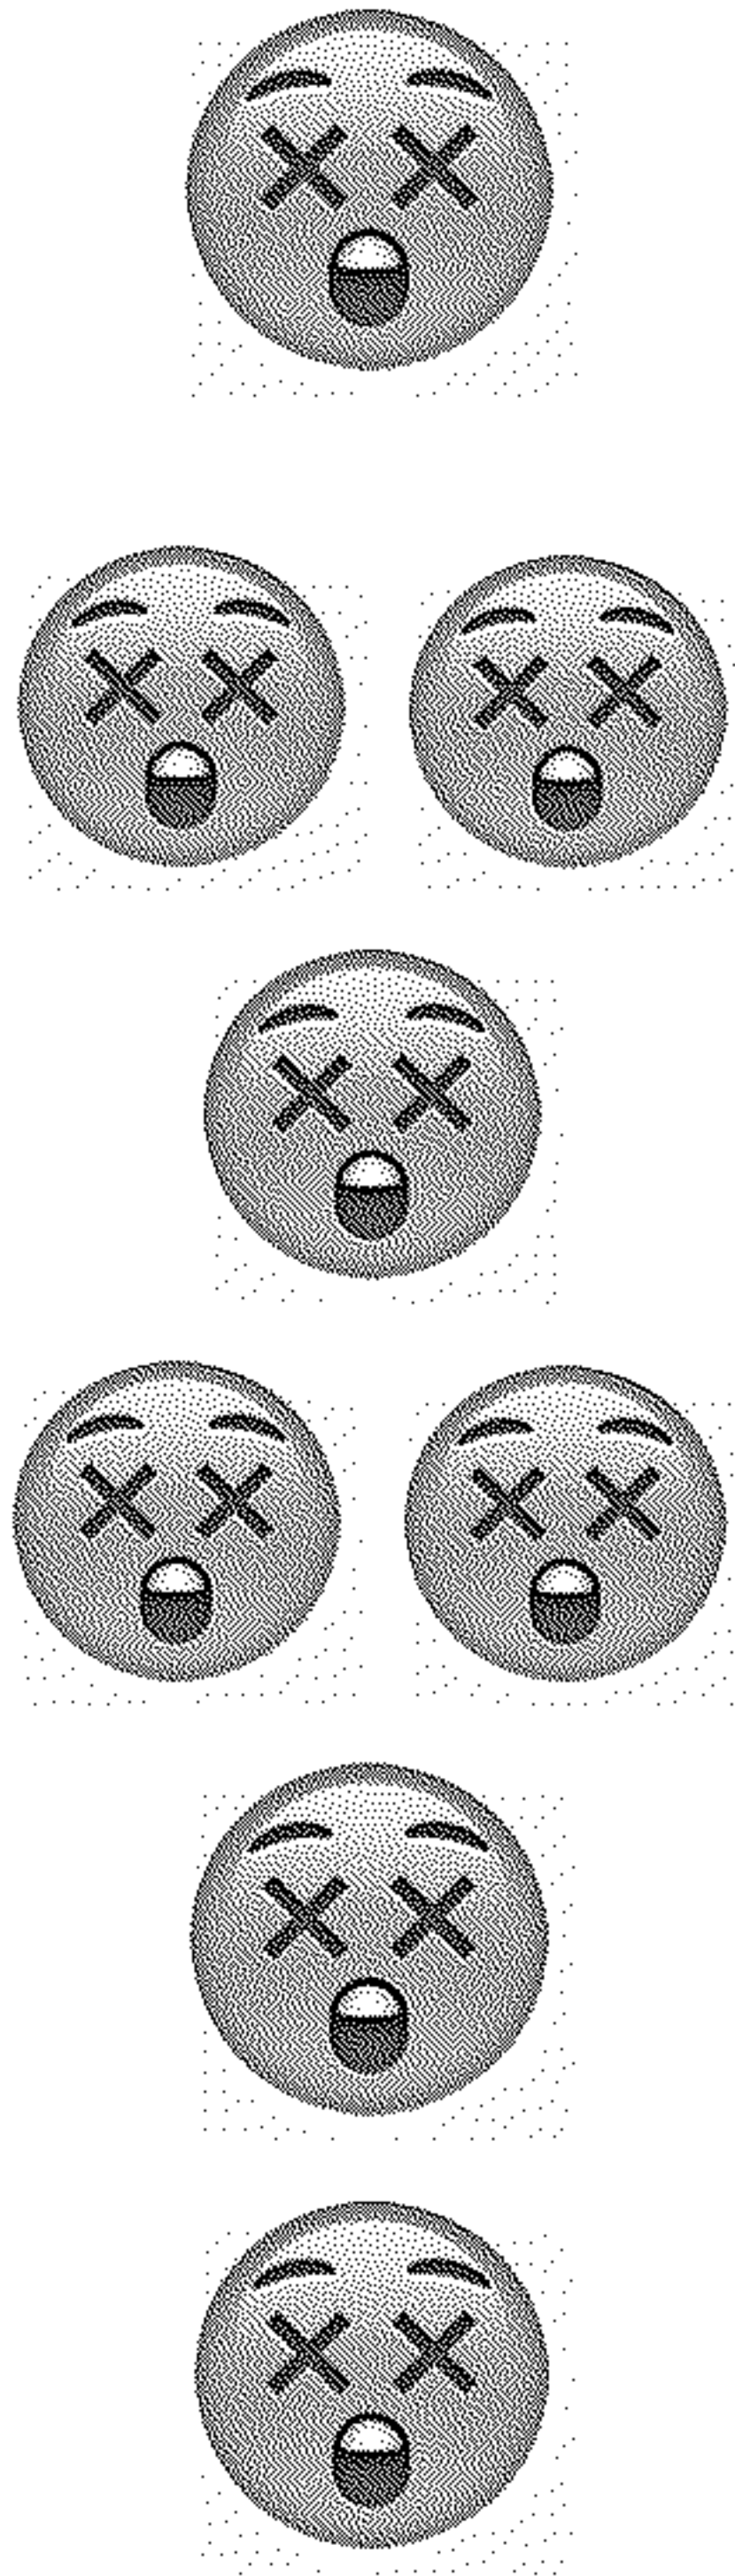

I will still need a liaison and will attempt "coffee with cop" [ even though I detest coffee ].

Can I get the attention of that cop that seriousness is what I need and that seriousness will not dismiss me?

What if I am never treated honorable and with dignity?

The answer is, people continue to die.

Not by my hands, but by your playing games of h0opscotch and your lack of response of responsibility to the first question posed in this document.

What if... you act dis-proportioned and file that harassment charge, in a criminal pursuit to hold a conspiracy?

I at least I will have counsel.

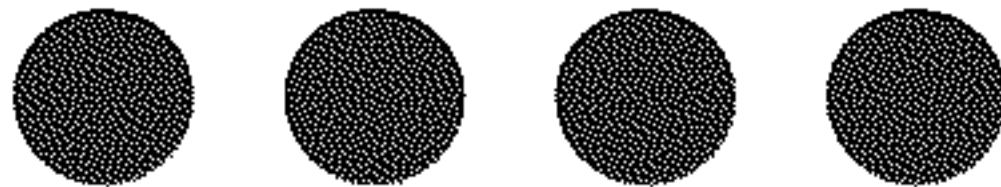

All I want is a community affairs realism of empowerment and you all won't break a conspiracy of hate. Will you?

What if... hate is allowed to always win?

India saw its deadliest day of the pandemic yet with more than 4,180 confirmed COVID-19 deaths reported Saturday.

**Why it matters:** The country has recorded more than 21.8 million coronavirus cases and 238,270 deaths since the pandemic began. The true numbers, however, are likely much higher, experts say, as the country battles a continued surge in cases that has left hospitals and health workers overwhelmed.
